

Generation Wild: Inspiring the next generation of nature lovers

*Mark Stead, National Learning Manager
Wildfowl and Wetlands Trust*

Our centres

Areas of study

- Coastal realignment
- Wetland restoration and conservation
- Natural flood management
- Wetlands and climate change
- Environmental change in freshwater ecosystems
- Freshwater ecology
- Migration
- Plastic pollution

Supporting resources

The screenshot shows the top navigation bar of the WWT website. On the left is the WWT logo. On the right, there is a link for 'Main WWT website'. Below the logo, there are navigation links: 'Home', 'Wetland Centres', 'Learning sessions', 'Resources', and 'FAQs'. The main content area features a large heading 'Ecosystems and environmental change' with a small orange underline under the word 'change'. Below the heading is a paragraph of text: 'Discover the role of wetlands in providing important habitat, cleaning water, reducing flood risk and preventing climate change. How might human activities help to protect and enhance wetland environments? How might they pose a danger to these environments?'

Pre-visit resources

Inspire your learners before their visit

Downloads

11-14 YEARS

Post-visit resources

Extend learning back at school

Our approach

Direct hands-on contact with nature

Wildlife and ecosystems as the key learning resource

Cost

Type of visit

Cost per student

KS3/4 self-guided visit

£4.45 - £7.00

KS3/4 visit with 1 hour learning session

£5.15 - £8.35

Free teacher visit

Planning a school trip?

Have you considered our
WWT Wetland Centres?

They're perfect for classes learning about nature and wildlife, but don't take our word for it, see for yourself with this voucher allowing **one teacher plus their family*** FREE entry to any of our nine centres.
*Partner and children.

WWT is a charity registered in England No. 262110 and in Wales No. 262110
